

Goat Skins

The majority of Australian Goat skins come from feral animals born and bred in Australia's outback region. The goats are slaughtered both in licensed game and export meatworks.

Drum Salted Goat Skins

100% Machine Flayed Abattoirs Run Selection excluding damaged & torn skins are drum salted in agitators with fresh coarse refined salt containing chemicals for the elimination of bacteria at time of curing. A typical offering would consist of selection 80/20 sound/cut grades.

Sound Skins

Free of through holes in the prime area of the skin, may have up to 3 small holes on the extremities of the skin, good shape and free from bacterial damage.

Cut Skins

Up to three small holes in the prime area of the skin, some slightly misshapen skins may be included however torn and bacterial damaged skins are excluded.
